MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategy

Investment objective

The Company's objective is to generate income while preserving, for its beneficial shareholders, capital for re-investment. As a mortgage investment corporation, the Company expects to derive its earnings principally from the receipt of mortgage interest payments, mortgage fees, and interest or interest like distributions on the cash reserves of the Company.

Investment Strategy

The Company will seek to achieve its investment objective by lending on the security of mortgages on real properties in urban western Canada, primarily situated in the province of Saskatchewan. The mortgages transacted by the Company will not generally meet the underwriting criteria of conventional lenders. The Company, however, does not trade in mortgages in the secondary market. The mortgage term is not to exceed two years, but providing the mortgage is in good standing and mutual agreement is reached, the mortgage may be renewed for one or more additional terms. As a result, the Company's investments are expected to earn a higher rate of interest than what is generally obtainable through conventional mortgage lending activities.

Risks

As of the date of this Management Report of Fund Performance, management is not aware of any negative risk factor which has adversely affected the return on investments for 2013. Management must continually identify and evaluate mortgage applications that meet its eligibility criteria. All bad or questionable loans have been accounted for in the financial statements and no trends are known at this time that will likely affect the capital base of the Company, the ability of the Company to find and fund mortgage loans or decrease the Company's investment income.

The business operations of the Company are subject to the following risks, among others, that could affect shareholder's equity and the Company's ability to generate returns: relative illiquid nature of mortgage investments, inability of borrowers to make mortgage payments, inability of the Company to find suitable mortgage investments, changes in property value, ranking of mortgages, no guarantees to investors on returns, and reliance on third parties. These risks are described in greater detail in the Company's Annual Information Form, a copy of which may be obtained through SEDAR at www.sedar.com, or by visiting our website at www.PrimeWest.ca.

Results of Operations

The financial statements of the Company are prepared in accordance with Canadian generally accepted accounting principles (GAAP) and National Instrument 81-106 Investment Funds Continuous Disclosure, and all amounts are expressed in Canadian dollars.

Operating Results for the Period

The following table presents the results from operations for the indicated years ended December 31:

	2013	2012
Total revenue	\$ 3,129,148	\$ 3,769,604
Per weighted average common share	\$ 1.49	\$ 1.80
Net earnings	\$ 1,829,056	\$ 2,196,493
Per weighted average common share	\$ 0.87	\$ 1.05

The revenues of the Company represent mortgage fees and interest from investments, substantially all of which is earned on its investment in mortgages. Decreases in revenues were a reflection of two factors: (1) an increased turnover of mortgages and (2) a decrease in new mortgages being funded during the year.

Basic net earnings per share is computed by dividing net earnings for the year by the weighted average number of units outstanding during the year.

Diluted net earnings per share are computed similarly to basic net earnings per unit. Because there are no dilutive instruments outstanding, basic and fully diluted earnings per share are the same.

Outstanding Share Data and Transactions for the Period

The Company is authorized to issue an unlimited number of common shares. The following table presents a summary of share data and transactions for the indicated years ended December 31:

Share Capital - Number of Shares		2013		2012

Issued		-		120,000	
Redeemed		-		(49,478)	
Special resolution of the shareholders (below)		-		(2,000,000)	
Balance – end of year	\$	17,617,162	\$	17,617,162	

During 2012, the shareholders of the Company passed a special resolution that reduced the stated capital of the Company by an amount of \$2,000,000 that was affected by reducing the stated capital account for the common shares by this amount with a corresponding allocation to retained earnings.

Demand loan

The margined, demand loan bears interest at prime plus 1.5%, has an authorized limit of \$15,000,000 and is secured by a general security agreement and an assignment of debenture mortgages.

Demand Loan Balance		2013		2012	
Balance – beginning of year	\$	5,759,091	\$	7,912,243	
Minimum loan balance – for the year				3,323,983	
Maximum loan balance – for the year		5,759,091		8,727,029	
Balance - end of year	\$	2,281,782	\$	5,759,091	
Percentage of net assets - end of year		12%		30%	

The proceeds of the line of credit, together with the Company's capital are used to invest in mortgages.

Recent Developments

Subsequent to year end, the Company has transitioned from an Investment Fund to a Regular Reporting Issuer. The reclassification will not have any impact on the corporate governance of the Corporation other than the Independent Review Committee was dissolved. Some key differences between the operation of the Corporation before and after reclassification are as follows:

		Investment Fund	Regular Reporting Issuer
	ments: Unaudited Audited	Semi-Annually Annually	Quarterly Annually
Basis of Accou	nting:		
]	Disclosure	GAAP	IFRS

Annual Informa	ation Form		
I	Form	81-101F2	N/A

The Company also passed a resolution that would allow redemptions (at the discretion of the Corporation) and retractions (at the discretion of holders of Class A Shares) at a price that is less than \$10.00 per Class A Share. This change will ensure that when a shareholder calls for retraction of Class A shares, restrictions under the Act will not inhibit the company's ability to redeem such shares.

Accordingly, when a shareholder calls for redemption of shares held by such shareholder by giving notice to the Corporation during the period April 1 to April 30th of a particular year (the "Redemption Period"), the Corporation shall on or before July 31st, and provided redemption requests for the year do not exceed 10% of the issued and outstanding Class A Shares, redeem the shares at the price equal to the lesser of (a) \$10.00 per share; and (b) the book value per Class A Share as stated in the audited financial statements for the year ended immediately prior to the Redemption Period.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Company and are intended to help understand the Company's financial performance over the past two years. The information is derived from the Company's audited annual financial statements.
